

## CADVenture

### DESCRIPTION:

Know any CAD Software? It's time to show what you know, Step into a CAD Venture. Each participant will be provided with 2-D drafts of the parts and assembly which will you have to 3-D model the complete assembly into any of your desired software.

### RULES:

1. You may use any CAD software(Catia, AutoCAD, Solid works, Pro-E).
2. PC's will be provided with installed software at the venue of the competition. While registering just mention the software you will be using.
3. 2-D drawings will be provided of the part/components and the assembly. Participant has to show the file of the complete assembly and the individual components as well.
4. The parameters on which your design will be judged are:
  - a) Accuracy of the design, dimensions/constraints playing an important role.
  - b) Time taken to complete model.
  - c) Technique used to model and comprehending ability of the drawing.
5. Variations in dimensions are acceptable as long as they are reasonable.
  - a) The decision of judges will be final and no further debate will be allowed.
  - b) Entry will be strictly disqualified if found using unfair means.
  - c) Problem statement for the same would be given on the spot.
