

VIRTUAL FLYING

Aim:

To fly through a certain set of obstacles.

Description:

A fun event giving you the feel of flying in the virtual skies. Make the screen the skies and the joysticks the flight controllers. It is always better to hone your skills before hitting the skies, why not do it competitively. So basically, walk in and test your skills in the RC flight simulator.

Arena:

Lecture hall with projector

Game play:

Participant has to control the virtual plane using the joystick given and maneuver it. Also, complete certain tasks or missions assigned.

Points and scoring:

The scoring shall be briefed on the spot on the basis of the randomized track to ensure a fair ground for all participants.

Eligibility:

Individual participation with prior/ walk in registrations.

Team Specification:

Individual
